Important Message**CONCERNING THE USE OF MAPKING BY VEHICLE DRIVER**

TO ENSURE SAFETY DRIVING, WE STRONGLY ADVISE THAT A DRIVER SHOULD NOT OPERATE MAPKING WHILE DRIVING THE VEHICLE SIMULTANEOUSLY. A DRIVER SHOULD NEVER FOCUS HIS OR HER ATTENTION ON THE MAPKING DISPLAY WHILE DRIVING.

CONCERNING ROUTE PLANNING

The route planning function of MapKing is ONLY meant to be and should ONLY be used as a crude reference. IT SHOULD NEVER BE USED TO DETERMINE ACTUAL DRIVING DIRECTIONS. The route planning function of MapKing is subject to the following limitations:

- Whilst we have taken great care and endeavors in developing the product, we CANNOT guarantee that the road network data and routing calculations of MapKing are free of any omission or defect.
- The road network and traffic conditions in the real world are ever changing; MapKing being a pre-packaged product cannot reflect all these changes on a constant basis.
- Road network parameters specifically required for route planning, like one-way traffic indicator or turn restrictions at street crossing, are difficult or almost impossible to obtain for China or some other Asian countries. The lack of these data would significantly affect the performance of route planning.

The Company takes no responsibility for all losses and damages arising from the use of this product, agreement to which is deemed given by the user upon the commencement of operation of the system.

產品授權碼 Product Authorization Code

Please refer to Page 3 of the Chinese version Quick Guide.

Software Registration

1. Get the “Product Authorization Code” from Page 3 of the Chinese version Quick Guide.
2. Please go to <http://www.MapKing.com/>.
3. Please click “Registration”.
4. Please choose “Nokia 330”.
5. Please fill in your information and the “Product Authorization Code”.
6. A “Registration Code” will be generated for you.
7. Enter the “Product Authorization Code” and “Registration Code” to launch MapKing.

Main Menu

Destination: Select destination.

Navigation: Start navigation.

Map View: Browse map.

: Exit MapKing.

: Cancel route.

: Enter GPS Status.

: Enter System Setting.

Map View

Tap-and-hold on map to call the menu.

Add to My Favorites: Add to My Favorite.

Set As Home: Save as Home.

Remove My Favorite: Remove self define POI from map if any.

Start point: Set as starting point.

End point: Set as destination.

Remove: Remove Start/ End point if any.

Simulation: Start simulation.

Destination

Find Road & Find POI: Choose a district from the list. Enter a keyword and click Next. Choose a record from the list and the map will zoom to an appropriate scale with the selected record at the center.

1. **Back:** Back to previous page.
2. **Home:** Save as Home.
3. **Save:** Add to My Favorite.
4. **GO!** Set as destination.

Home: Users can set a specified point as Home in Map View or from search result.

1. **Back:** Back to previous page.
