Introduction

Thank you for purchasing the W52P.

Before using it for the first time, be sure to read the W52P Basic Manual (this PDF manual) so as to know how to use it correctly. After you finish reading this manual, store it and the printed materials that come with the phone in a safe place for future reference.

Printed Manuals for the W52P (Japanese)

The W52P comes with a Basic Manual and an Instruction Manual.

For information about basic operation

Cellphone Etiquette

Mind your manners!

A cellphone always emits weak radio waves while it is turned on.
Enjoy operation of your cellphone without forgetting to be considerate of those around you.

Some locations do not allow the use of cellphones.

- Using a cellphone while driving is dangerous and prohibited by Traffic Control Law.
- Using a cellphone in an aircraft is prohibited by law. Be sure to turn off your cellphone.

Watch out where you use your cellphone, and keep your voice down.

- Do not make calls at cinemas, theaters, museums, libraries, or other similar locations. Turn the cellphone off or use Manner Mode to ensure that the ring tone does not disturb others.
- When in public, move to a location where you will not be blocking traffic.
- On the Shinkansen, in a hotel lobby, or in other similar locations, move to a location where you will not disturb others.
- Take care to avoid talking on the phone in a loud voice.
- Before taking the picture of others, be sure to obtain permissions first.

Cellphone radio waves may interfere with electrical medical equipment.

- On a train or in other crowded locations, there is always the possibility that someone nearby may be wearing a pacemaker. Turn your cellphone off when you are in a crowded area.
- Follow the rules of hospitals and other medical facilities prohibiting the use or possession of cellphones.

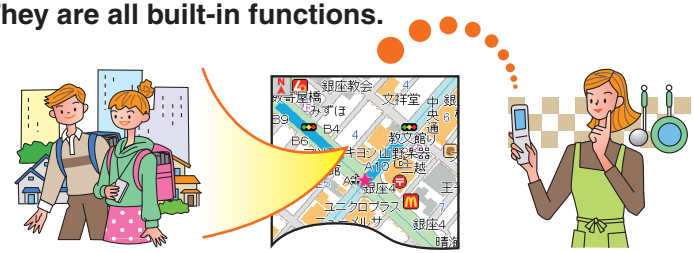
page 85

EZ Navi

EZ Navi Walk, Passenger Seat Navi, and Safety Navi allow you to get various kinds of location information.
They are all built-in functions.



page 70

In addition to the functions covered in this page, your W52P also has the following features. → "Other Functions" (page 87)

Manner Mode and Easy Voice Memo

Manner Mode

Use Manner Mode to turn off the ring tone so as not to bother others around you.

While the standby screen is displayed, hold down ▶マナー for about one second.

page 34

Easy Voice Memo

If you cannot answer a call, Easy Voice Memo plays an answering message and records the caller's message.

While the standby screen is displayed, hold down メモ/クリア for about one second.

page 35

Checking Power, Signal Strength, and Battery Level

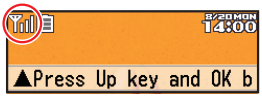
Normally leave the phone turned on.

The phone needs to be turned on to make and receive calls.

Hold down PWR for at least 1.5 seconds to turn on W52P. After a while, W52P turns on with tone and the standby screen appears.

page 15

You cannot talk on the phone if it is unable to receive a signal.

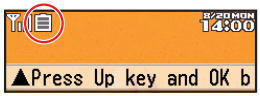


Signal strength is low in some areas, even if they are within the service area.

indicates the current signal strength.

page 15

Keep an eye on the battery level.



The phone may not function properly if battery power is low.

indicates the current battery level.

page 15

Never use your cellphone while driving!

Holding a cellphone in your hand, talking on a cellphone, or looking at a cellphone display to send mail or to perform any other operation while driving is prohibited by Japanese law.
(Revised Traffic Control Law, effective November 1, 2004)

× Reading mail or looking at the display.

× Holding a cellphone in your hand to talk.

Turn off your cellphone or use Drive Mode while driving.

Drive Mode

In Drive Mode, the phone will play the message "ただいま車を運転しています。・・・" (I am driving right now...), and ask the caller to leave a message using Easy Voice Memo.

While the standby screen is displayed, press ▶マナー, and press 1 あ (ON). Next, press 2 か ABC (Drive Mode) to enter Drive Mode.

Beware of spam and one-ring calls!

How to Combat Spam

You can set up mail filters to block specific mail or mail identified as “未承諾広告※” (Unsolicited advertisement), which often includes spam.
Your cellphone has the following filters to block spam.

- blocks mail identified as “未承諾広告※” (Unsolicited advertisement)
- blocks specific mail
- blocks spoof e-mail

page 55

Beware of one-ring calls!

A “one-ring call” (wan-giri in Japanese) rings your phone only once, in an attempt to make you call back to a service that automatically bills you very high charges.

The abse nce icon at the head of an incoming record indicates that the call rang for only four seconds or less.
This indicates a possible “one-ring call”.

Disaster Message Board Service

Disaster Message Board

The Disaster Message Board lets you use EZweb to register information about your well-being in case of a major disaster. The information you register can be accessed from anywhere in Japan over EZweb or the Internet.

Registering the safety information

- When a major disaster strikes, you can use your au cellphone to access the "災害用伝言板" (Disaster Message Board) on EZweb and register your current condition, comments, and other information about your well-being.
- After you register information, it can be sent by mail to family, friends, and other individuals you have registered as a recipient of your Disaster Message Board information.

Checking the safety information

- Disaster Message Board information can be accessed by inputting the phone number of an individual over EZweb or the Internet.※

※ Disaster Message Board information can be accessed from another type of cellphone, PHS, or PC at http://dengon.ezweb.ne.jp/.

How To Access

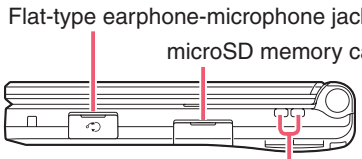
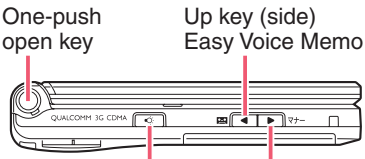
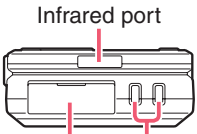
Side

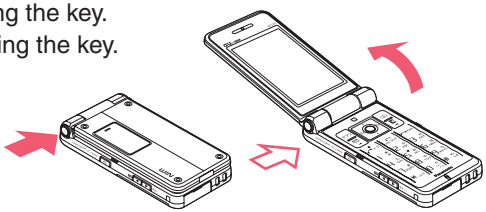






Opening W52P by Using a Single Key (One-push Open)

You can open the W52P easily by pressing the key.
You can also open it manually without using the key.



1 **Press the One-push open key.**

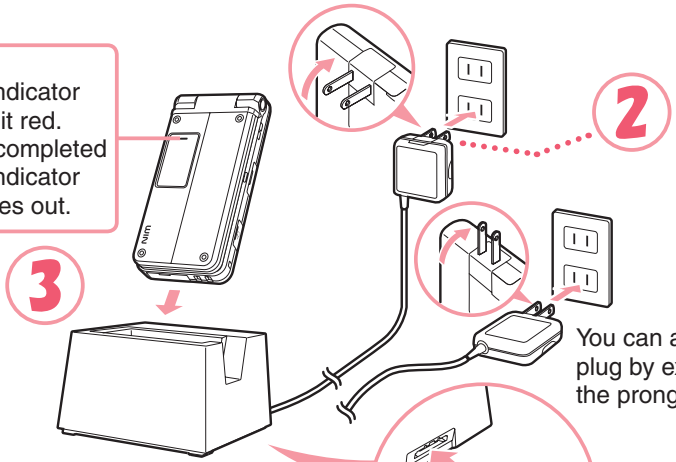
Info

◎ Your W52P might not open fully, depending on its direction.
◎ Be careful not to drop it by its rebound when opening your W52P by pressing the key.
◎ Be careful not to catch your fingers when opening your W52P.
◎ You need to close your W52P manually. If it does not close, once open it fully and close it.

Charging the Battery

The battery pack that comes with the phone is not fully charged when purchased. Be sure to charge the battery pack before using the W52P for the first time. Charging takes about 140 minutes.
You should recharge the battery pack whenever the battery level icon shows or .

• Charging
: Charge indicator (LED) is lit red.
• Charging completed
: Charge indicator (LED) goes out.



You can also use the plug by extending the prongs like this.

Check the shape of the connectors to ensure they are aligned correctly when you connect them.

Caution!

◎ You must purchase a common AC adaptor 01 (option) for charging. Note that the configuration of the AC adaptor may be different from that shown in the illustration above.

◎ Pull out the connector of the common AC adaptor 01 (option) straight so as to be parallel to the W52P or the desktop holder connector terminal when you connect them.

1 Connect the common AC adaptor 01 (option) to the desktop holder.

Check the shape of the connectors to ensure they are aligned correctly before you connect.
Trying to force a connection may damage the connectors.

2 Fold out the power plug of the common AC adaptor 01 (option), and plug it into a 100V AC power outlet.

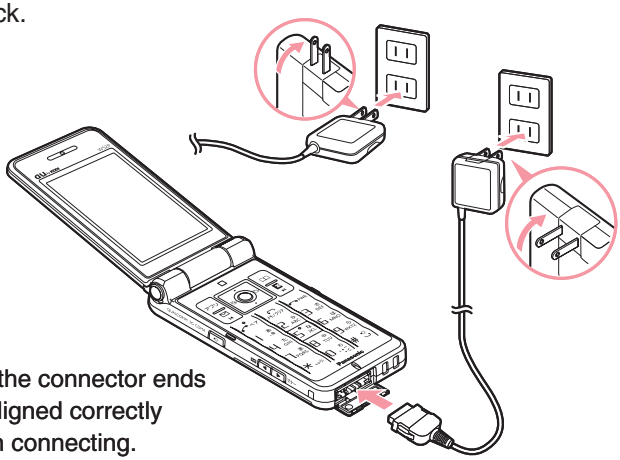
3 Insert the W52P into the desktop holder.

This will cause the W52P LED indicator to light red, and (charging battery icon) to display.

When charging is completed, the battery level icon will show FULL and the indicator will go out.

To remove the W52P from the desktop holder, holding the holder by hand and remove W52P.

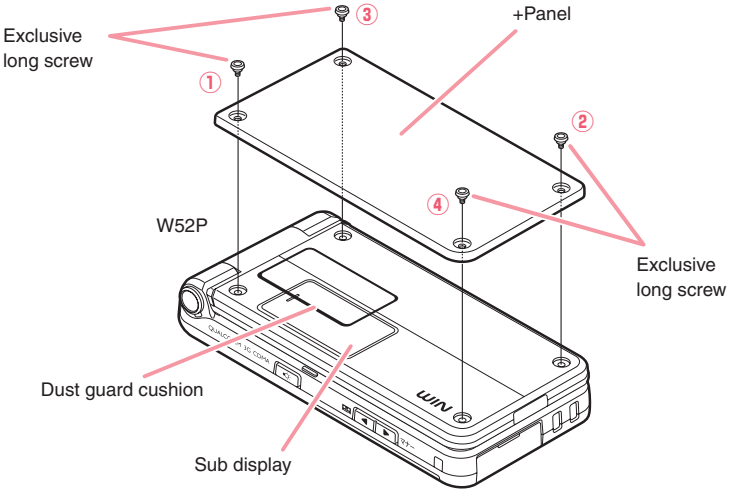
※ You can connect the common AC adaptor 01 (option) to the W52P directly to charge the battery pack.



Check the shape of the connector ends to ensure they are aligned correctly (shown above) when connecting.

How to attach the +Panel™

You can attach the +Panel to the W52P if you choose to do so. You can also have fun with the +Panels by replacing one with another to suit the setting or mood you find yourself in.



1 Remove the four short screws.

Do not lose or misplace the screws you have removed.

2 Use the four exclusive long screws to attach the +Panel.

Neatly align the +Panel with the sub display, and tighten the screws in ascending numerical order (① to ④).

Caution!

◎ Use the exclusive screwdriver provided to attach or detach the +Panel.
◎ Take care not to allow dirt or foreign matter to gain entrance between the +Panel and W52P.
You can effectively ensure that this will not happen by adhering the dust guard cushion in place around the circumference of the sub display before attaching the +Panel.
◎ Keep the exclusive screwdriver in a safe place. You can use it to attach other +Panels, available as optional accessories.

Camera Features

Your W52P comes with a built-in 2.1-megapixel, 2.07-million effective pixel camera to shoot photos.
You can attach the photos that you shot to e-mail messages.

Using the Camera

1 Use your images for W52P functions!

You can use photos you shot for the standby screen, for the image that appears while the ring tone is sounding, and in your address book.

2 Send images by e-mail!

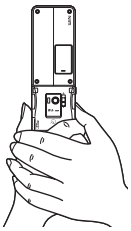
Within 500KB※, you can send a photo (shot with Mail Mode) as an e-mail attachment.

※ Certain signal conditions may cause slow work sending/receiving e-mails.

Tips for Better Photos

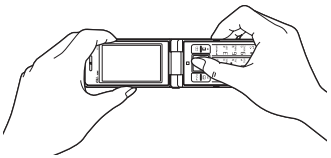
Shooting Phone/Wallpaper size/ etc. Images

Do not cover the lens with your hands. Hold the camera securely with both hands.
Use your thumb to press [●] (Shutter) to release the shutter.



Shooting VGA/SXGA/UXGA/ WIDE size Images

Do not cover the lens with your hands. Hold the camera securely with both hands.
Use your thumb to press [●] (Shutter) to release the shutter.



Tips for Avoiding Hand Movement

- Remain steady by keeping your arms lightly against your sides and standing with your legs spread apart to about shoulder level. Having your arms away from your side or extended in front of you can cause blurred images.
- When you press the shutter button, remain still until your shutter tone finishes sounding. This is especially important when shooting where lighting is dim.
- Self-timer is also available for shooting photos. With the self-timer, you do not need to press the shutter button to shoot a photo, so there is less chance of a blurred image caused by accidental movement of the phone.

Photo Sizes

The following shows the sizes of the photos that can be recorded with your W52P.

Photo sizes	Where to save

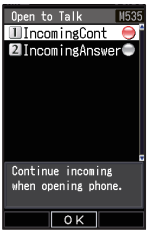
“IncomingAnswer” : Answer incoming call when opening phone



To set Open to Display New

Press ● 5 JKL 3 DEF 4 GHI, and press 1 (ON).

Info

Even if you open W52P, a new mail message is not displayed when “Auto Lock” or “Mail Rstr” is effective.

In addition to the functions covered in this Basic Manual, your W52P also has the following features.

Global Expert

W52P supports Global Expert based on au IC-Card.
Global Expert is an international roaming service for the customers to use the phone replacing its au IC-Card with GSM cellphone for overseas use. No special application procedure or daily/ monthly fee are needed, and the call charge is added up to domestic call, so the pay procedure is simple.

au Music

You can use au Music Player to enjoy a Chaku-Uta-Full® or your favorite CD tracks. Also, you can download a Chaku-Uta-Full® or purchase CD tracks by accessing “EZ Music!”.

Barcode Reader & Maker

You can use the camera to read QR codes and barcodes. Also, you can create your own barcodes directly from your address book entries.

au My Page

You can upload and backup various data in your W52P (in Address Book, E-mail, Data Folder) to au My Page on server to manage/check them.

Infrared communication

You can exchange the data saved in your address book, Schedule, or Data Folder between au cellphones supporting infrared communication.

EZ FeliCa

Simply by holding W52P over reader/ writer (external device), you can use W52P for shopping by using e-money or credit card or use it as member’s cards, point cards, a discount coupon, and so on.

EZ•FM

The W52P allows you to listen to the FM radio.
Matsushita round-type earphone jack conversion adaptor 01 and MDR-E0931SP/BC by SONY have a built-in antenna to get a signal.

EZ apps (BREW®)

Enjoy downloaded games and other software.

PC Site Viewer

You can view the web sites just like those you view with your personal computer. You can comfortably view the web sites by high speed packet communication of 2.4 Mbps receiving at maximum.

Macro Mode (Photo and Movie)

Switching closeup switch allows you to take close-up photos of food, flowers, and other subjects (closest focusing distance: 10 cm).

Serial Shot (Photo)

You can shoot up to nine consecutive images and store all of them or only selected images in memory.

Recording a movie

You can record a movie.
You can send a recorded movie as an e-mail attachment.

Post Recording/ Telop (Movie)

After recording a movie, you can add audio or text. You can select 24 colors or 169 colors for text or background.

Hello Messenger

Using the characters of your choice, you can combine characters, sound and photos as desired, and hold conferences. Conferences with up to four people can be held.

EZ Channel-Plus / EZ Channel

Simply by registering the programs you want to view, the latest content will be delivered automatically so you can enjoy EZ programs just as you watch the TV or read a magazine.

EZ News Flash

You can check latest news report on your standby screen. With this “information delivery service”, you can select EZ news flash telop or window to browse various news information.

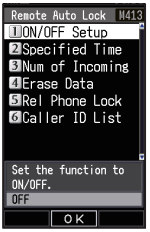
If you lose your W52P

Turning on Remote Auto Lock makes it possible for you to set Auto Lock and FeliCa Lock on from a remote location. These lock function keeps others from using your W52P.

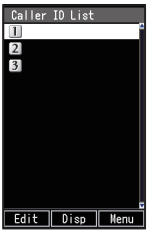
Configuring Remote Auto Lock Settings

You can set Auto Lock and FeliCa Lock on by making calls several times from the registered phone number to your W52P within the specified period of time.

1 **While the standby screen is displayed, press [●] [4 GHI] [1 .@] [3 DEF], input the lock No., and press [●] (OK).**



2 **Press [6 MNO] (Caller ID List).**

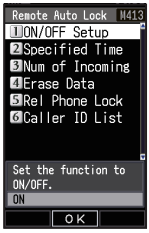


3 **Use [▲▼] to select a registration number, press [アプリ] (Edit), input the phone number, and press [●] (Reg).**

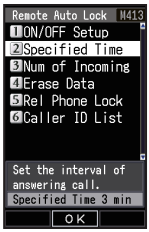
You can also press [📖] (Menu) before inputting a phone number, and select the number from the address book, outgoing records, or incoming records, or you can specify a pay phone. You can register up to three different phone numbers.

Press [メモ/クリア] twice and advance to the next step.

4 Press 1 (ON/OFF Setup), and press 1 (ON).

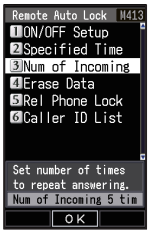


5 Press 2 (Specified Time), input the period you want to specify, and press ● (OK).



You can set the time period (the time intervals from the first call to the last call you should make to activate Remote Auto Lock). You can set the time period between 1 to 10 minutes.

6 Press 3 (Num of Incoming), input the number of calls you want to specify, and press ● (OK).



You can set how many times you should repeat making a call to activate Remote Auto Lock. You can set it from 3 to 10 calls.

■ Setting Auto Lock and FeliCa Lock on

1 Make a call to your W52P from the registered phone number within the period of time which has been specified in “Configuring Remote Auto Lock Settings” (page 90).

After repeating a call (3 to 10 calls you have specified), Remote Auto Lock turns active, and you hear an announcement letting you know Auto Lock and FeliCa Lock has been set. After Remote Auto Lock turns active, your W52P is automatically turned off, and turned on again.

Caution!

◎ Remote Auto Lock cannot be activated while your W52P is turned off or outside of the service area.

◎ When you purchase the W52P, its initial value in “Erase Data” setting is “Not Erase”, and its initial value in “Rel Phone Lock” setting is “Valid”.
